Plastronics

The revolution of Smart Plastics

Plastronics

Where do we come from?

Plastronics

The revolution of Smart Plastics

Plastronics

8 reasons to take the leap

Plastronics

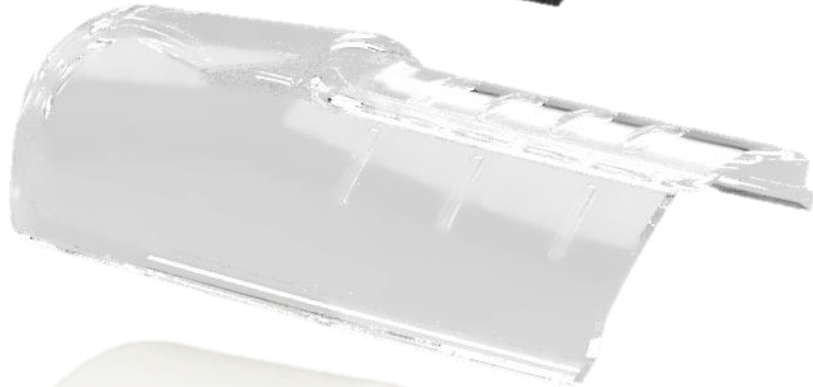

8 reasons to take the leap

Decorative foil

Endless decoration options.

Resin

Structural and encapsulation medium.

Functional foil

Smart functionalities: from illumination to sensing.
Endless combinations.

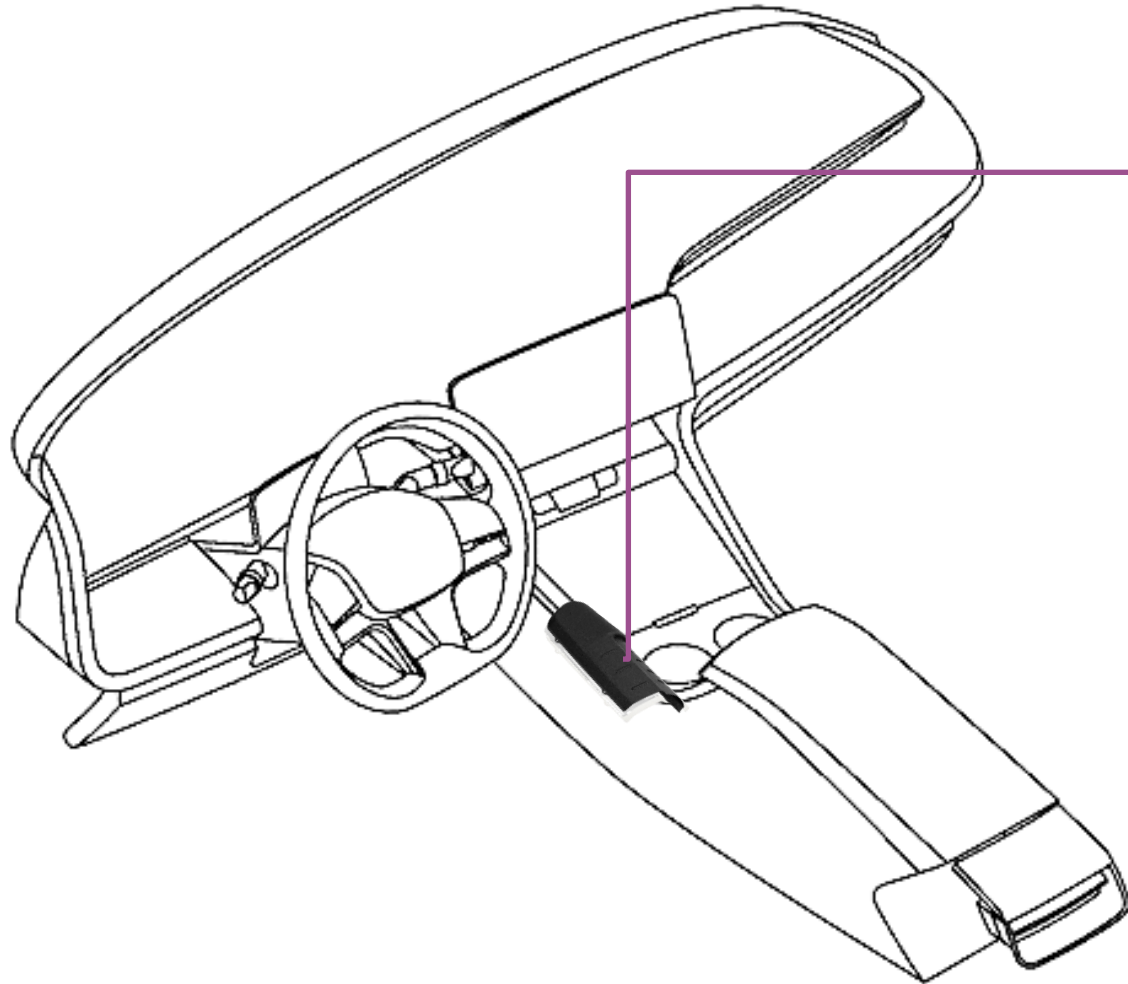

Plastronics

One part, one process, endless variations

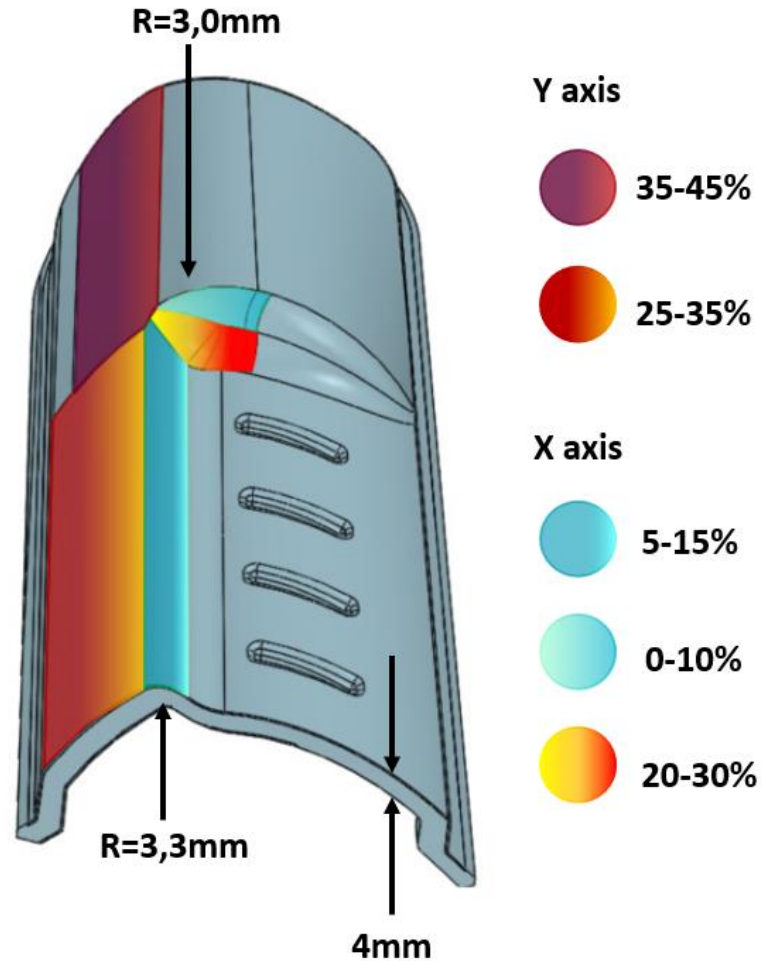

Plastronics part

Plastronics center console

- Capacitive switches
- Backlit pictograms
- Intuitive use
- Haptic grooves
- Seamless design

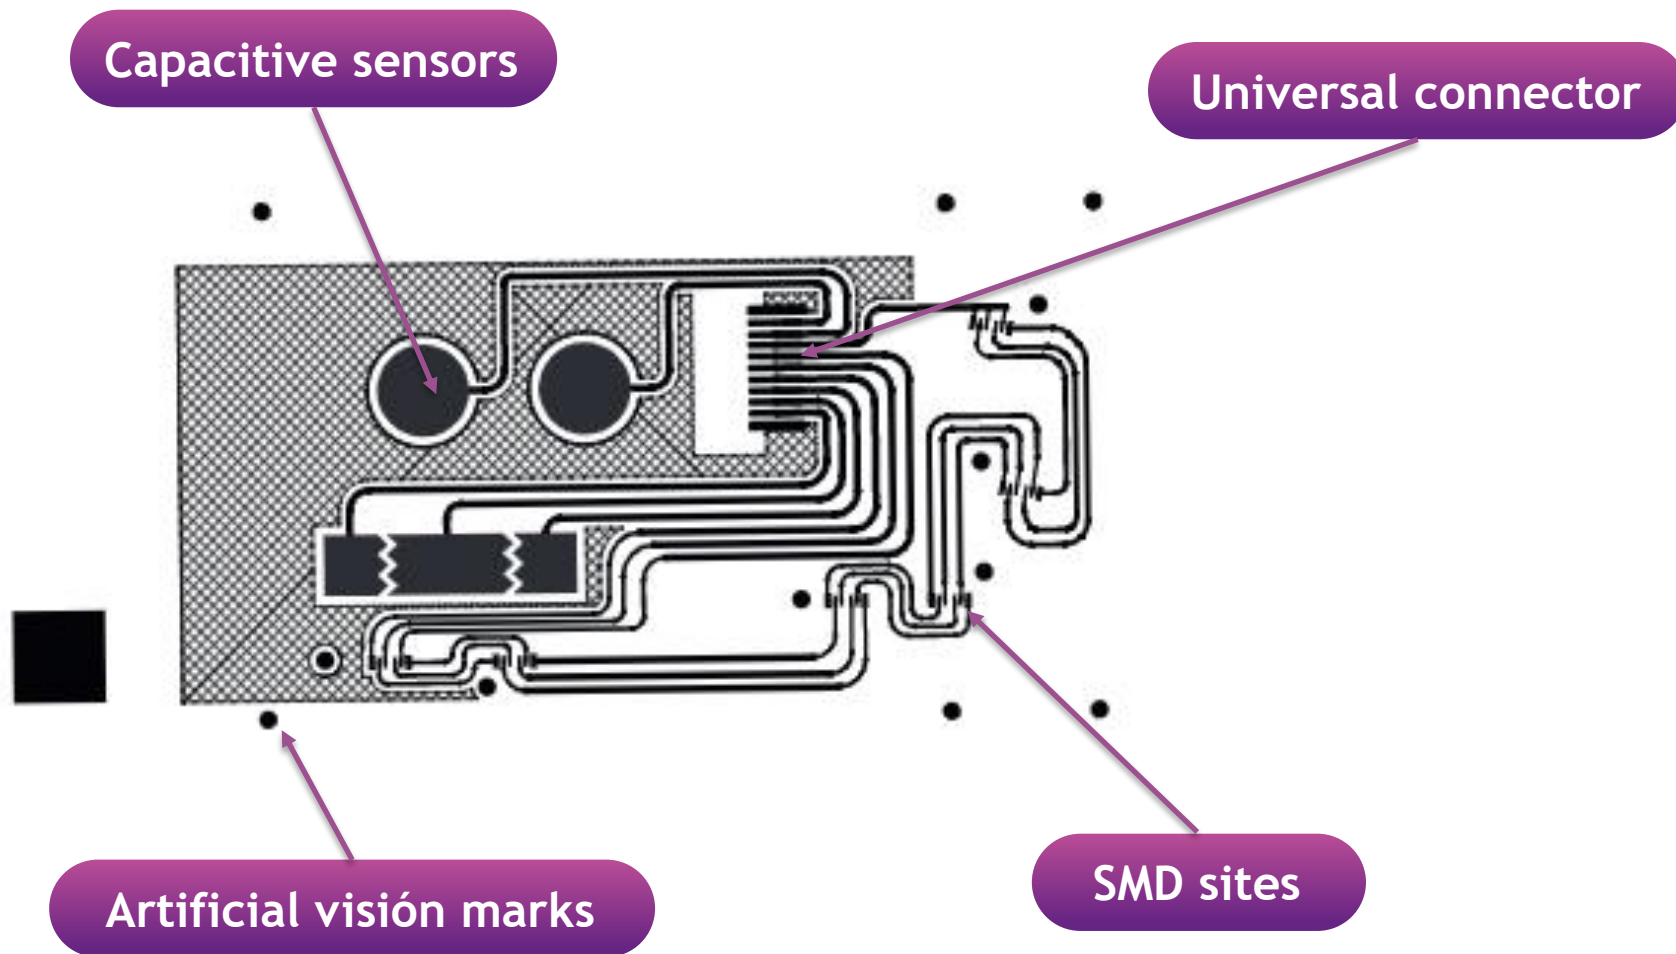

Preserve the geometry

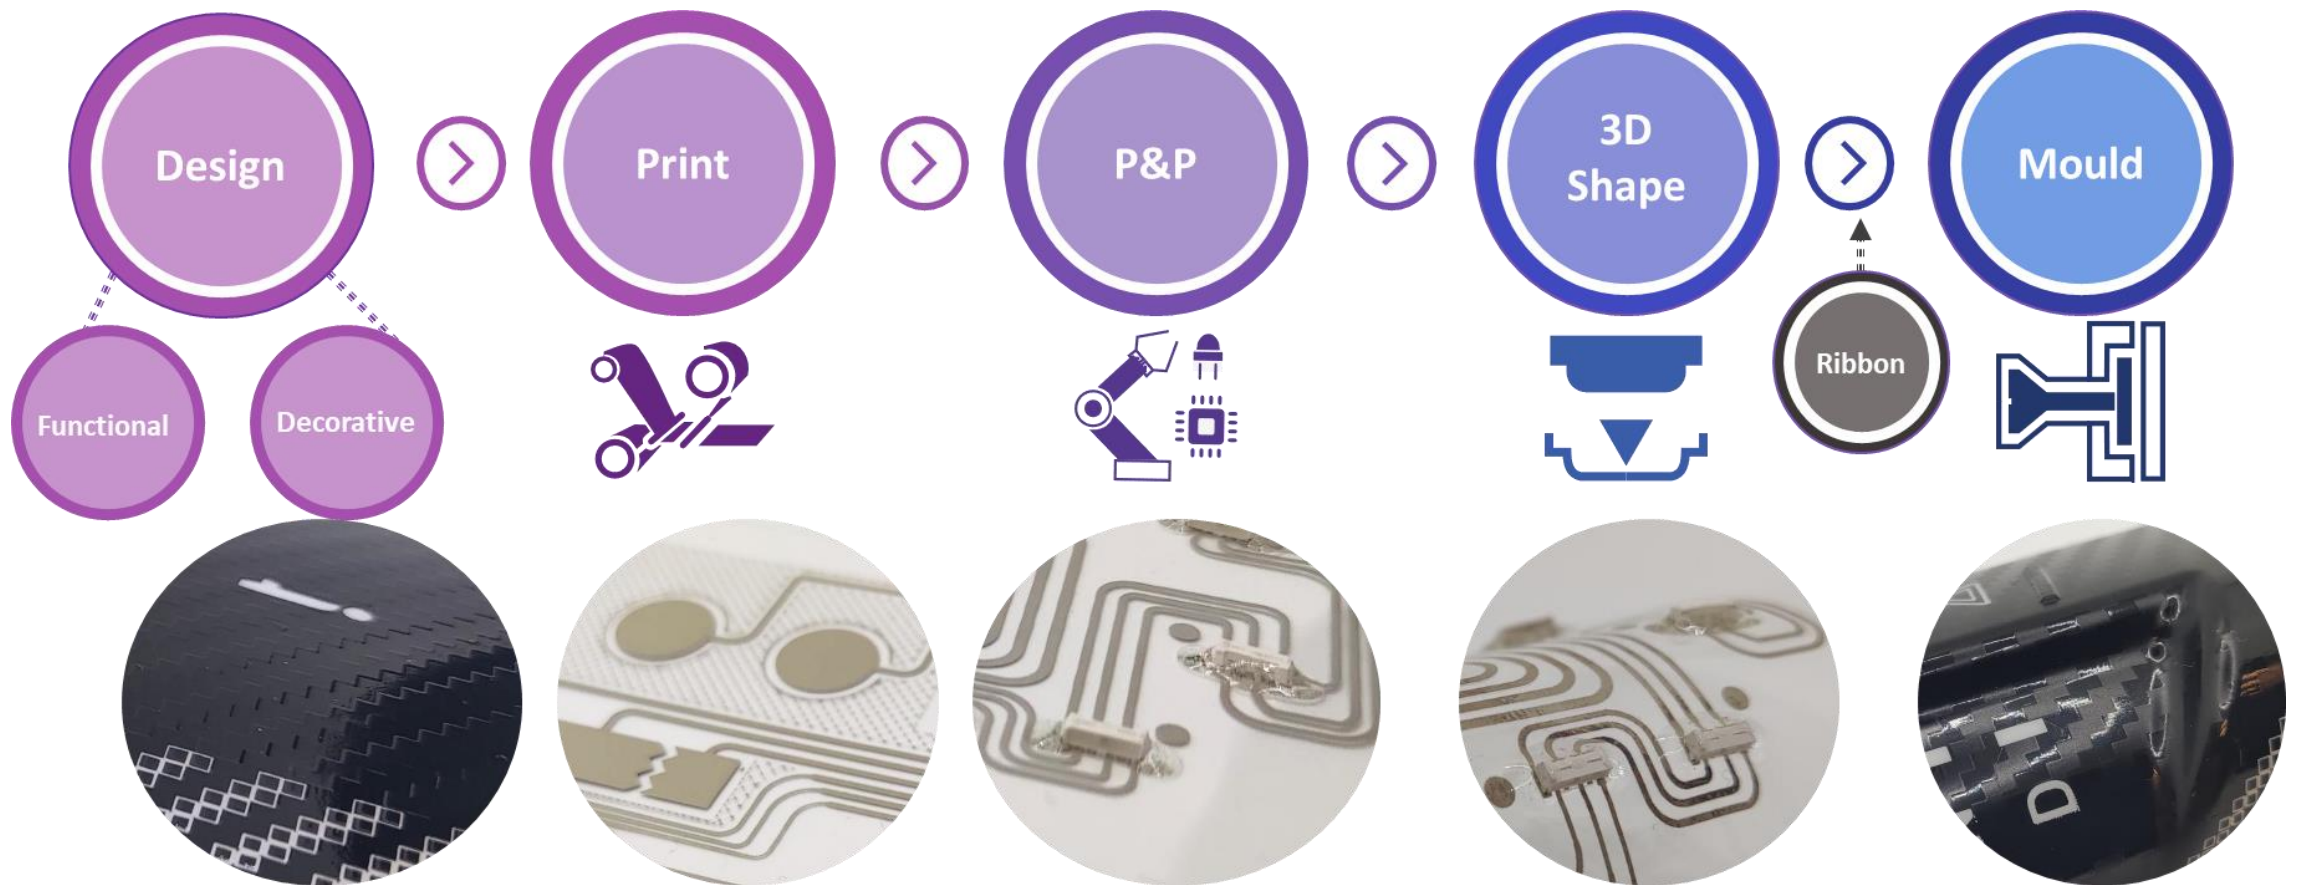

Small radiuses

2D stretching (X & Y axis)

High formation ratio

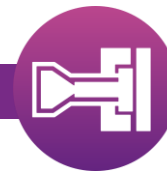

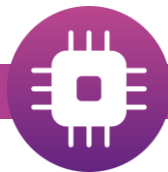

Use of proper materials and manufacturing strategies

Our value

From A to Z

Tailor-made design

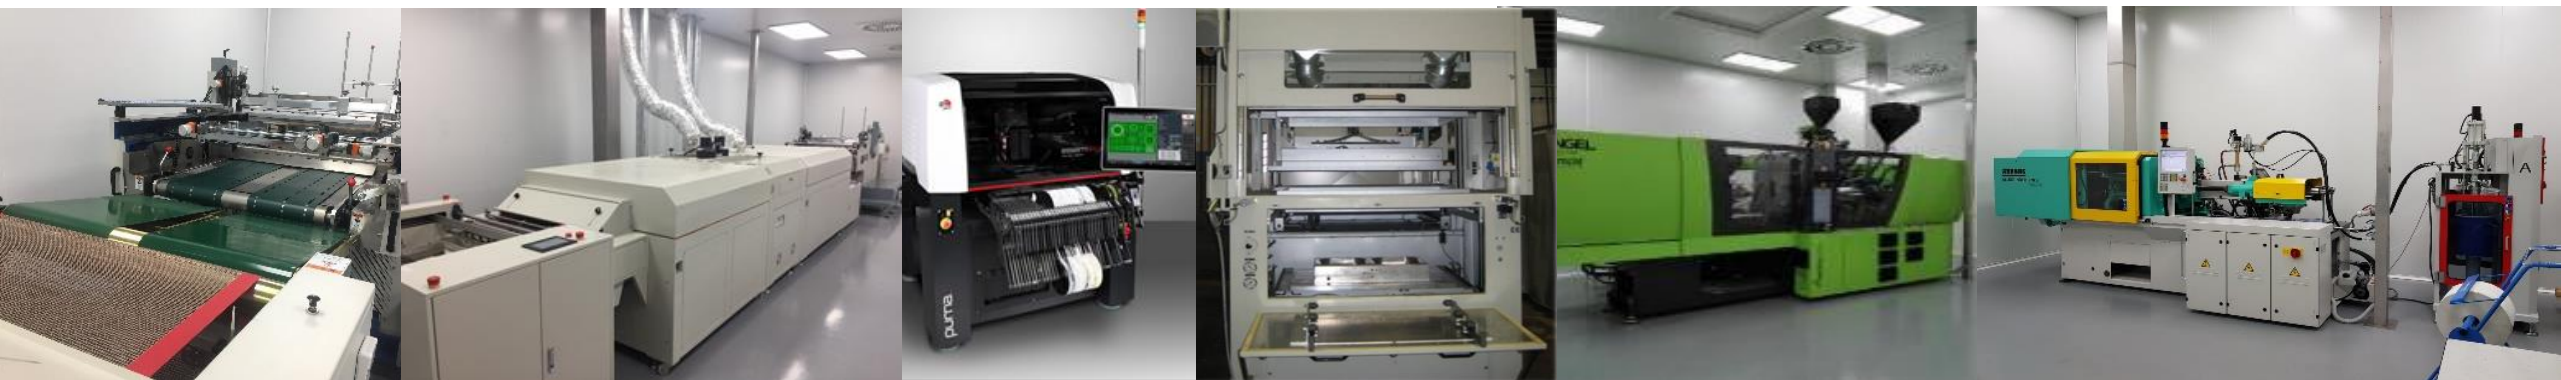

Screen printing

Hybridization

Forming

Trimming

Injection moulding

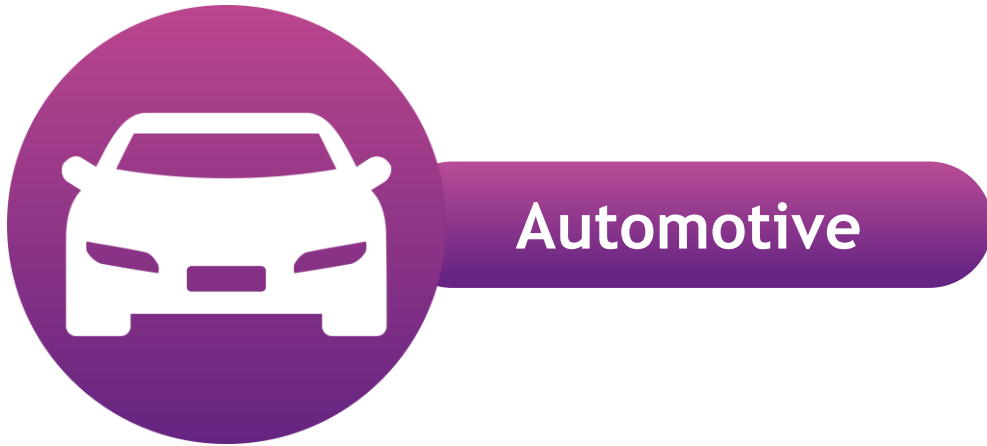

Plastronics pilot plant

Design and validation
of functional film

Design and validation
of decorative film

Full functional
decorated part

14+
projects with end users

5
ongoing projects with end users

3+
consortium projects

6
innovative solutions
susceptible of patent

6+
years of experience
